February 15, 2022

Dear Colleague:

Enclosed please find information regarding the *Lancaster Course in Ophthalmology* sponsored each summer by the Massachusetts Eye and Ear, Harvard Medical School. With no end in sight to this pandemic, we will again host it virtually this summer and hopefully we will return to the beautiful Colby College campus in 2023. This year the course will start on **July 11, 2022 and conclude on August 5, 2022**. In order to accommodate students from different time zones, we will have live lectures from 7:30 AM to 12:30 PM ET, Monday to Friday. The lectures will be recorded and accessible to registered participants through September 15, 2022. In addition to lectures, the faculty will share a wealth of recordings for students to access in the online gallery at their convenience.

As you may know, the *Lancaster Course* has provided training for ophthalmologists from all over the world and has been utilized by many teaching hospitals to supplement their residency training programs. The course provides extensive coverage of the basic and clinical sciences in Ophthalmology. It provides a strong foundation for residents and a great review and refresher for practicing ophthalmologists. Please visit our web page www.lancastercourse.org for more detailed information.

I hope you will consider directing this brochure to members of your department who may be interested in attending. Thank you for your attention to this matter.

Sincerely yours,

Lucy H. Young, M.D., Ph.D., FACS
Director

Lancaster Course in Ophthalmology

The Lancaster Course in Ophthalmology

For Residents, Practicing Ophthalmologists and Optometrists
July 11 - August 5, 2022

Course Director: Lucy H. Young, M.D., Ph.D.

The Lancaster Course in Ophthalmology will run in a virtual format in 2022 due to the pandemic. The four week course will provide contemporary and comprehensive coverage of the clinical sciences in Ophthalmology. Founded in 1946, the Lancaster Course has offered training to young ophthalmologists from all over the world and has supplemented training for many teaching hospitals in the States and in Canada. The faculty is selected for its expertise, clarity of presentation and ability to contribute high quality visual aids. Residents and practicing ophthalmologists and optometrists are all welcome to attend. In addition to live lectures delivered via Zoom, the faculty will share a wealth of recordings for students to access in the online gallery at their convenience. After the lectures are delivered and recorded, they will also be loaded in the gallery. All course material will remain accessible to the registered students through September 15th, 2022.
